NEW SERIES OF PASSIVE OPTICAL PRODUCTS: TGLASS

Dear Customers,

We are pleased to announce the launch of our latest series of passive optical products – TGlass.

The new series is a response to the growing market demand for reliable and advanced technologies for fiber optic networks.

TGlass has been designed to support the development of modern infrastructure by providing high-performance and stable products at attractive prices.

Our offering includes: Fiber Optic Cables | Optical Splitters | Adapters | Patch Cords | Pigtails | Splice Protectors.
